

I've been on two mission trips to Kenya with Dreamweaver International. The most amazing part of my experience in both cases is that I sincerely leave with the hope and intent on serving the people of Kenya well. The truth is however, that instead of me serving them... **THEY SERVE ME!** The Maasai and people of Kenya help foster strengths of gratitude, spirituality, the ability to love and be loved, kindness, generosity and finally a sense of hope and optimism for the future that I come back from the trip renewed and refreshed for life! Thank you Dr. Warren and Dr. Smith for your organizational efforts in creating such a great mission!
